

**South Berwick Sewer District**  
PROPOSED USER CHARGE RATES  
CALENDAR YEAR 2019

**BASE SERVICE FEE**

The amount of the BASE SERVICE FEE shall be set at \$200.00 a year per equivalent unit. Trustees have reviewed the number of equivalent units and determined them to be 1,640. Base Service Fees applied to the operating costs and debt service will be \$328,000.

**ASSESSED CONSTRUCTION COSTS**

Assessed Construction Costs for Berwick Road units are \$3000.00/unit payable on a quarterly basis over a 60 month period at the inception of the 2016 Rate Schedule. As of January 2019, 8 quarterly payments of \$150.00 each remain. Payments will be applied to the Capitol Reserve Account

**BONDED INDEBTEDNESS**

Interest and principle payment on Bonded Indebtedness and 2% Sinking Fund is calculated to be \$56,763.00 for 2019.

**VARIABLE SERVICE RATE**

The variable portion of the budget is \$1,004,937.00 with \$271,237.00 applied from the Base Service Fee. Trustees estimate that billing water meter readings will be 66,700,000 gallons of water for the year. The variable rate will be the amount of \$0.011 per gallon of billed water.

**FRONTAGE RATE**

The rate for undeveloped property having frontage on public sewer shall be one half of a Base Service Fee, thereby being \$100.00 per year.

**CONNECTION FEE**

The rate for a connection fee for a new unit shall be \$3,000.00 credited to the sinking fund.

**INSPECTION FEE**

The fee is set at \$200 for single family residences and \$60.00 per hour for other inspections,

**TRANSPORTED WASTEWATER**

The rate for septic wastewater disposal is set at \$0.080 per gallon.  
The rate for grease tank disposal is set at \$0.14 per gallon.  
Additional classifications to be set by District Superintendent.

**LATE FEES** The rate for late fees shall be set at the same interest rate that the Town of South Berwick uses for unpaid taxes.

The above rates are proposed by the Trustees for calendar year 2019 and are set for public hearing on January 7, 2019.
